

# Workshop

## New Bodies for Cognitive Humanoids

October 26<sup>th</sup>, 2011, Bled, Slovenia

Tamim Asfour

**Humanoids 2011**

11th IEEE-RAS International Conference on Humanoid Robots  
Bled, Slovenia  
October 26th - 28th, 2011

# Objectives

- How the body morphology must support processes and representations for emergence of cognitive capabilities?
- Topics related to novel design methodologies of humanoids robots
  - Body morphology
  - Mechatronics and Biomechanics
  - Actuation and compliance
  - Artificial skins
  - Soft materials
  - New computing paradigms
  - Energy and power management

# Organizers

- Tamim Asfour, Karlsruhe Institute of Technology (KIT), Germany
- Rüdiger Dillmann, Karlsruhe Institute of Technology (KIT), Germany
- Ales Ude, Jozef Stefan Institute, Ljubljana, Slovenia
- Giorgio Metta, Italian Institute of Technology, Italy
- Giulio Sandini, Italian Institute of Technology, Italy
- Gordon Cheng, Technical University Munich, Germany

# Sponsor

- 2nd European Network for the Advancement of Artificial Cognitive Systems, Interaction and Robotics

# Program (I)

- 9:00 **Tamim Asfour, Karlsruhe Institute of Technology, Germany**  
[Towards High-Performance 24/7 Humanoids](#)
- 9:30 **Oskar von Stryk, TU Darmstadt, Germany**  
[Elastic Bodyware for Bio-Inspired Humanoids](#)
- 10:00 **Yuto Nakanishi, University of Tokyo, Japan**  
[Challenge to Design and Control of more Humanlike Tendon-Driven Musculoskeletal Humanoids](#)
- 10:30 **Coffee Break**

## Program (II)

---

- 11:00 **Yoshihiko Nakamura, University of Tokyo, Japan**  
[On the Requirements of New Actuator for the New Body of Humanoids](#)
- 11:30 **Alin Albu-Schaeffer, DLR, Germany**  
[Design and Control of DLR Compliant Robots](#)
- 12:00 **Nikos Tsagarakis, Italian Institute of Technology, Italy**  
[Developing Actuators with Rich Motor Properties for Emerging Humanoids](#)
- 12:30 **Lunch**

## Program (III)

- 13:30     **Kenji Kaneko and Kazuhito Yokoi, AIST, Japan**  
[Design of Cybernetic Human HRP-4C](#)
- 14:00     **Tomoaki Yoshikai, The University of Tokyo**  
[Humanoids with Whole-Body Soft Sensor Flesh for Close Interaction with Humans, Objects, and Environments](#)
- 14:30     **Giorgio Metta, Italian Institute of Technology, Italy**  
[Advances in the Design of the iCub Humanoid Robot: Force Control and Tactile Sensing](#)
- 15:00     **Coffee Break**

## Program (IV)

- 15:30 **Erhan Oztop, Ozyegin University, Istanbul, Turkey**  
[Projecting from Human-in-the-Loop Control to Cognitive Robot Design](#)
- 16:00 **James Kuffner; Google & CMU**  
[New Cloud-Based Computational Architectures for Humanoids](#)
- 16:30 **Panel discussion**
- 17:00 **End**
- 17:20 - 17:30 Conference Opening
- 17:30 - 18:30 Plenary Talk I, Bruno Maisonnier:  
[Towards applications for humanoid robots](#)
- 19:30 - 21:30 Welcome Reception

**Slides will be available at the webpage**
